

YOU'RE NOT ALONE.

SHARE YOUR VOICE:

Help Create Youth Suicide Prevention Videos & Resources

We are creating **videos and resources** for young people who have experienced suicidal thoughts, behaviors, and/or attempted suicide. This is part of an ongoing grant project on youth suicide prevention. **We're looking for young people aged 14-30 who are willing to share their thoughts on what kinds of resources would be most helpful.**

By filling out our brief online survey and sharing your feedback, you can help shape tools that may support other young people facing similar challenges.

You're not alone—and your voice is important
